

*Our purpose is to advance the standards of septage system manufacturing, installation, repair, inspection and maintenance, by working toward the establishment of a uniform state code containing standards for the design, installation and servicing of septage systems.*

*To establish throughout the state a relationship among all those concerned with the septage system industry that will increase the flow of information, not only among members of this association but among all organizations and agencies having allied objects and purposes.*

*To establish on a statewide basis a liaison with governmental agencies so that legislation affecting the septage system industry can be enacted, based upon statistics, facts and actual experience.*

*To inform and educate the people of North Carolina as to the value and safety of septage systems. To protect and maintain the environment of the State of North Carolina through the use of sound ecological practices in the manufacturing, installation and servicing of septage systems.*
